(Xilinx Spartan 3 - XC3S2000
FPGA) General Logic; Memory:
3% free; DSP Resources: The
FPGA does not have DSP
resources; Where can I find a
compatible SD Card for the
USRP2? Not all SD Cards are
compatible with the USRP2;
therefore we recommend using
the Kingston 2GB SD cards with
part number KGS SD2GB as we
have found they work reliably.
